Japanese Market

10 years of accumulation have built trust and cooperation.

- We have established stable partnerships with many well-known Japanese brands and retailer
- Modular Cat Tree Series for Kohnan: Custom-designed with combinable structures to fit store space limits and customer needs, driving end-sales growth and expanding product categories.
- Deep expertise in Japan's channel preferences—visual aesthetics, certifications, packaging specs, and user feedback—delivering unmatched ODM/OEM adaptability.

European & American markets

Full-chain support across standards and aesthetics

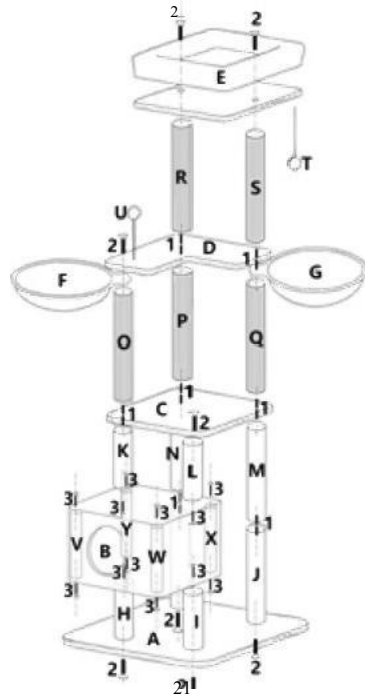

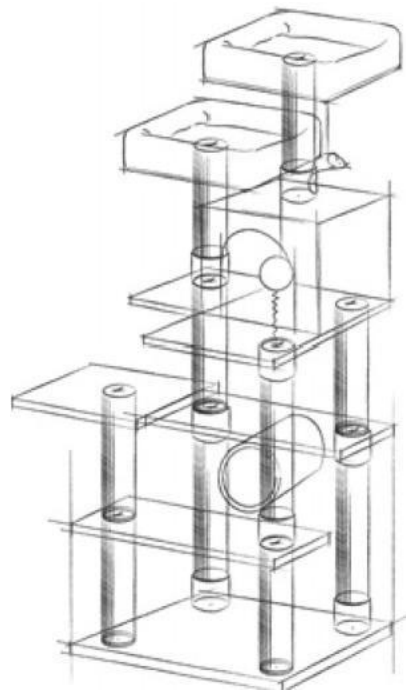

- **Global Compliance Mastery:** Fully versed in UL, CE, FCC, REACH, CA Prop65, and other key certifications—ensuring eco-friendly materials, structural safety, and compliant packaging/labeling for cat trees.
- **Proven Track Record:** Successfully powered brands on Amazon, Wayfair, Costco, and more—shipping to North America and Western Europe with ongoing optimizations in modular assembly and compact shipping.
- **Design Excellence:** Expert in creating cat tree systems tailored to Western tastes and needs.
- **End-to-End Support:** Dedicated team delivers structural breakdowns, space-saving packaging, e-commerce renders, and overseas assembly videos—empowering seamless brand launches.

Dedicated sample showroom, connecting inspiration with the market

Immersive Design Lab: From Vision to Reality in One Step

- 1,000m² Cat Tree Showcase: Hundreds of classic and innovative models on display—spanning heights, modular builds, fabrics, and styles—for hands-on exploration of craftsmanship and design.
- Instant Customization Zone: Fabric swatches, sisal samples, board materials, and hardware selectors enable on-site tailoring for global markets—fine-tuning structure, visuals, and packaging.
- Your Product Incubator: More than a showroom—a living lab bridging ideas, markets, and production.

PetTrend, Beyond Manufacturing: Masters of Visual Storytelling & Innovative Structures

Beyond Build: Vision, Innovation That Sells

A standout cat tree isn't just sturdy and premium—it's a visual and experiential statement.

PetTrend's in-house design team covers structure, aesthetics, e-commerce visuals, and packaging—delivering full-cycle ODM from concept to mass production.

We fuse modular systems with platform-specific visual trends, creating instantly recognizable, highly differentiated products.

5 Core Strengths: Powering Global Cat Tree Success

Core Edge: Laser-Focused Cat Tree ODM Manufacturing – Delivering Efficient, Trusted Product Solutions.

- **Strong Manufacturing & Rigorous Quality Control**

Professional cat tree production team with clear processes, advanced equipment, and support for bulk customization & fast delivery. Full-chain QC from raw materials to finished goods; compliant with PSE/CE/REACH for global markets.

- **Rapid Product Development & Short Sampling Cycle**

In-house design team optimizes structures and innovates modules to turn concepts into reality fast. Standard samples ready in 3–7 days, with material recommendations and multi-spec combo designs. Proven experience with Japan & EU/US clients—balancing platform needs and cost control.

- **Powerful Modular Design for Flexible Customization**

Specialized in modular cat trees—freely mix & match for any region, scene, or space. Rich stock of structural components enables quick prototype builds. Includes assembly guides, packaging solutions, and e-commerce visual suggestions.

- **Global Market Ready with Multilingual Support**

Tailored to Japan, EU/US, and Southeast Asia preferences—flexible structures, materials, and packaging. Multilingual drawings (CN/JP/EN) and seamless collaboration. Certified by international third-party labs to meet cross-border entry standards.

- **Reliable Shipping, Pro Packaging, Ocean-Proof**

Independent QC + drop/impact tests ensure zero deformation in transit. Custom packaging & manuals per country norms to boost brand experience. Supports LCL consolidation and multi-SKU combined shipments.

- We are not in the traditional sense of Cat tree manufacturing. It's not a factory, but a complex integrating R&D, flexible manufacturing, logistics collaboration, and e-commerce. Comprehensive solution supporting all aspects. Solution provider.
 - PetTrend Breaking with tradition. OEM single. Our supply model provides global customers with more systematic and flexible customized services.
 - We connect Chinese manufacturing with global creativity, striving to be a truly trustworthy partner behind every brand. Cat crawling Framework cooperation partner.
-
